new testflight!

Uhohlingo — it's like duolingo but:
- you can generate whatever lesson you want
- it's wrong sometimes

but hey, if you need a hyper-specific lesson like HOW TO TALK ABOUT MOVIES IN FRENCH or HISTORY OF RATS IN NYC, it's got you covered :)

just write the title of your lesson and it'll do the rest:

1. break down your topic into units
2. break down each unit into subtopics
3. write a slide or two about each, and some multiple-choice questions to test your knowledge.

it'll even explain what you got wrong!
